

## **TRAINING SECRETS OF TAEKWON-DO**

An old proverb says that even heaven cannot make a diligent worker poor. However, in Taekwon-Do, diligence or intensive training alone does not produce quality techniques. On the contrary, instructions from a false or unqualified instructor would be worse than not being taught at all because unscientific movements not only reduce the power but require a tremendous amount of time to correct. On the other hand, under the proper guidance of a competent instructor, a student who trains earnestly with dedication will learn the true techniques of Taekwon-Do in a comparatively short period of time with less effort.

Students should keep in mind the following secrets:

- 1) To study the theory of power thoroughly.
- 2) To understand the purpose and method of each movement clearly.
- 3) To bring the action of eyes, hands, feet and breath into one single coordinated action.
- 4) To choose the appropriate attacking tool for each vital spot.
- 5) To become familiar with the correct angle and distance for attack and defence.
- 6) Keep both the arms and legs bent slightly while movement is in motion.
- 7) All movements must begin with a backward motion with very few exceptions. However, once the movement is in motion it should not be stopped before reaching the target.
- 8) To create a sine wave during the movement by utilizing the knee spring properly.
9. To exhale briefly at the moment of each blow excepting a connecting motion.
